THE ALL-IN-ONE SOLUTION.
TEST SMOKE, HEAT & CO.

Testifire allows for simple, compliant functional testing of detectors. Suitable for smoke, heat and CO testing, it increases productivity on site and is ideal for testing multi-sensors.

testifire®

MULTI-STIMULUS DETECTOR TESTER

testifire®
MULTI-STIMULUS DETECTOR TESTER

Any detector, any time – Testifire is a feature rich tool offering a unique range of benefits. Designed for fire industry professionals who are focussed on efficiency, Testifire is the test solution for single and multi-sensor detectors.

PRODUCTIVE
Supports faster testing with no need to switch between test tools

COMPATIBLE
Suits the widest range of detectors – including single and multi-sensor smoke, heat and CO

APPROVED
Certified by UL and approved by leading detector manufacturers

TESTIFIRE 1000 SERIES

TESTIFIRE 2000 SERIES

TESTIFIRE 1000 SERIES

Our most popular all-in-one detector tester, the Testifire 1000 enables functional testing of both smoke and heat sensors.

- Smoke and heat generated on-demand
- Activation of the widest range of smoke and heat sensors (up to 100°C)
- Compatible with Solo access poles
- Uses non-hazardous smoke capsules

PRODUCT CODE: TESTIFIRE1001-001

TESTIFIRE 2000 SERIES

The Testifire 2000 series offers all the features and benefits of the 1000 series – but with the added ability to test Carbon Monoxide sensors.

- Smoke, heat and CO generated on-demand
- Activation of the widest range of smoke and heat sensors (up to 100°C)
- Compatible with Solo access poles
- Uses non-hazardous smoke & CO capsules

PRODUCT CODE: TESTIFIRE2001-001
