

BLASTAR15

Features:

- 20-Degree Angle: Ideal for optimising Starlink signal reception.
- 1.5-inch Pole Mount Adaptor: Compatible with Starlink Gen 3 systems.
- UV Stable ABS Plastic: Ensures durability and resistance to weathering.
- Non-Slip Pad: Provides additional stability and prevents slippage.
- White Colour: Blends seamlessly with most exterior setups.
- Whether you're setting up in an urban environment or a remote location, the BLASTAR15 bracket offers the reliability and performance needed for uninterrupted Starlink connectivity.

The BLASTAR15 is a precision-engineered mounting bracket designed specifically for the Starlink Gen 3 system. With a 20-degree angle and a 1.5-inch pole mount adapter, this bracket ensures optimal positioning for your Starlink V3 installations, providing enhanced signal reception and stability.

Crafted from UV-stable ABS plastic, the BLASTAR15 is built to withstand harsh environmental conditions, ensuring long-lasting durability. The inclusion of a non-slip pad further secures the mount, preventing unwanted movement and ensuring your Starlink system stays firmly in place.
