

## Product Highlights

### Flexible Mobile Broadband

3G/4G mobile connectivity lets you create an Internet-enabled network, without the need for a fixed-line connection

### Internet Access For All Your Devices

Share your mobile Internet connection with your laptop PC, smartphone, tablet, and with others through a high-speed wireless network

### Active Security Features

Dual-active firewalls and WPA/WPA2 wireless encryption help protect your network from intrusions and unauthorised connections

## DWR-920

# Wireless N300 4G LTE Router

## Features

### Connectivity

- Use a SIM card to connect to the Internet
- Two Gigabit Ethernet LAN ports to connect wired devices
- Optional WAN port for fixed-line broadband
- 802.11n/g/b wireless

### Security Features

- WPA/WPA2 Wi-Fi security protocols provide the latest in wireless security
- Wi-Fi Protected Setup (WPS) for one-touch setup with other Wi-Fi devices

### Convenient

- Intuitive built-in web interface
- LED indicators to check the real-time status of your network

The D-Link DWR-920 Wireless N300 4G LTE Router is a cost-efficient solution that allows users to access and share a mobile Internet connection. Once connected, users can transfer data, stream media, and send SMS messages. Insert your 3G/4G SIM card and share your Internet connection through a secure wireless network or by using any of the two Gigabit Ethernet ports.

## Fast Mobile Internet

The DWR-920 lets you connect to your 3G/4G mobile connection with fast download speeds of up to 150 Mbps and upload speeds up to 50 Mbps, giving you the speed you need for fast, responsive Internet access. Surf the web with ease and stream music and video over the Internet to your PCs and mobile devices.

## Active Security Features

The DWR-920 utilises dual-active firewalls (SPI and NAT) to prevent potential attacks over the Internet. WPA/WPA2 wireless encryption helps keep your wireless network and your traffic safe, allowing you to share your 3G/4G connection without worrying about unauthorised users accessing your network.

## Easy to Set Up and Use

The DWR-920 can be installed and setup quickly and easily. It can be configured through almost any web browser without the need for special software. This router makes it possible to stay connected, even when conventional broadband services are unavailable.
