

A pair of rugged compact aerials, fully assembled with f connection for fast, easy installation. Recommended for full wideband installations particularly in built-up areas.

Both feature an LTE 700 filter to prevent interference & channel loss on TVs caused by 5G and 4G mobile phone signals

## LOG28K 28 Element Log-Periodic TV Aerial Group K

- Freq. range 470-694MHz, CH21-48,
- Built-in filter for 703-860MHz protects from 4G/5G mobile phone signal interference
- Gain 10.2dBi
- F type connector for secure connection
- Highly directional
- Low wind resistance

## LLP12K Compact Log-Periodic TV Aerial Group K

- Freq. range 470-694MHz, CH21-48,
- Built-in filter for 703-860MHz protects from 4G/5G mobile phone signal interference
- Gain 7.5dBi
- F type connector for secure connection
- Very discrete only 44.5cm long, very low wind resistance
- Ideal for Home, Caravan, Motorhome, Boat etc
